SEEDS

FOR NURSERYMEN October, 1941

DEAR CUSTOMER:

No Oriental Seeds !!! The war which last year cut off seed items from Europe has now stretched out to the Orient. At this writing, seeds from Japan seem to be out of the question. Some may come thru from China. But that remains doubtful in our opinion. We shall have some seed of *Taxus cuspidata* but never having collected it under domestic conditions, we have no notion of what the cost will be. Present indications point to about \$8.00 per pound. It may run even higher. As yet we have found no source for *Acer palmatum* or *Kudzu* Vine. *Rosa multiflora* and *R. rugosa* are situated better as we have some very good local seed and the price quoted in this list is very fair.

It may pay you to consider seed collection. If you know of pure stands of Trees or Shrubs in isolated positions where good seed can be gathered, write us. We will let you know what the seed will be worth to us.

Spruce Seeds of all varieties, excepting *Picea pungens* and *engelmanni*, are almost unobtainable this year. We may have some little *rubra* and *canadensis*. We understand *pungens* makes good understock for grafting many varieties.

Yours very truly,

FRED P. HERBST
